Optimising Your Water

The water we are drinking is IMPORTANT
for our Wellbeing and . . .

LOOKING YOUNGER LONGER

It's about YOU
it's about LIFE
it's about TIME

Optimised Water

According to H.H. Mitchell, Journal of Biological Chemistry 158, the brain and heart are composed of 73% water, and the lungs are about 83% water. The skin contains 64% water, muscles and kidneys are 79%, and even the bones are watery: 31%.

What Does Water do for You?

 Forms Saliva (digestion)

 Keeps mucousal membranes moist

 Allows body's cells to grow, reproduce and survive

 Flushes body waste, mainly in urine

 Lubricates joints

 Water is the major component of most body parts

 Needed by the brain to manufacture hormones and neurotransmitters

 Regulates body temperatures (sweating and respiration)

 Acts as a shock absorber for brain and spinal cord

 Converts food to components needed for survival - digestion

 Helps deliver oxygen all over the body

Nikola Tesla

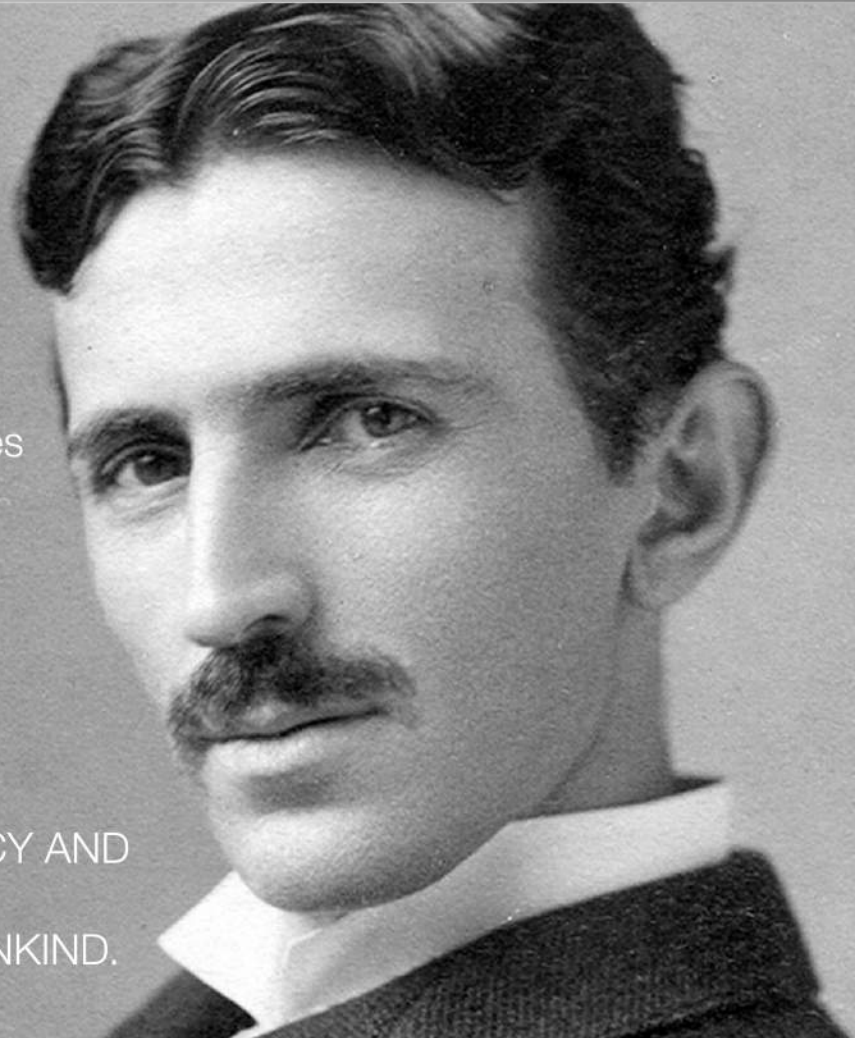

'Alpha Waves in the human brain are between 6 and 8 Hz, the wave frequency in the human cavity, modulates between 6 and 8 Hz. All biological systems operate in the same frequency range.

The human brains important Alpha waves is harmonised by the same frequency waves from EARTH WHICH IS 6 - 8 Hz.

Thus our brain and our entire biological system is in unison with the earths own frequency of 6 - 8 Hz.

IF WE CAN CONTROL THE FREQUENCY AND RESONANCES . . .
WE CAN IMPROVE THE STATE OF MANKIND.

Earths Frequency

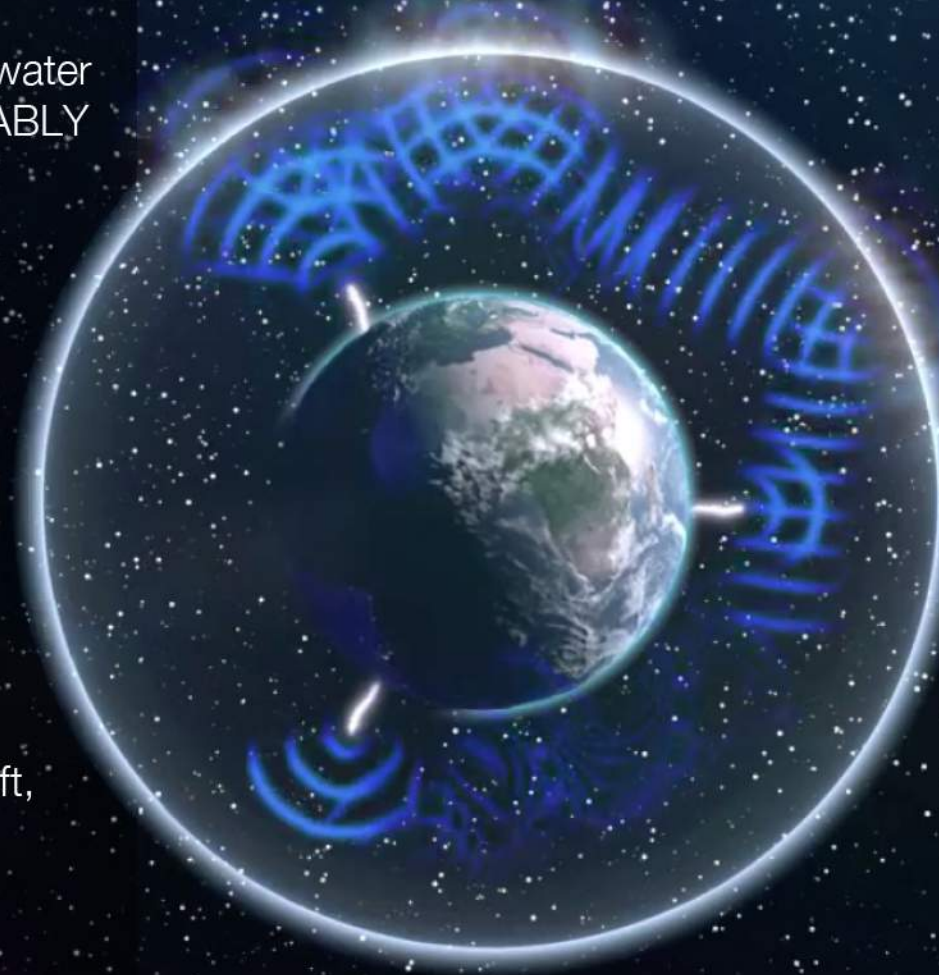

The Earth Frequency and its water
HAS CHANGED CONSIDERABLY
FROM TESLAS' TIME

The Earth Spins Counter
clockwise. In Teslas time, it
had a Schuman Resonance
of **7.83 hz.**

It is now thought to be at
a frequency of between
12.8 and 14.3 hz.

The SMART CARD reduces
the effects of the negative shift,
in the frequency in water.

Environmental Disharmony

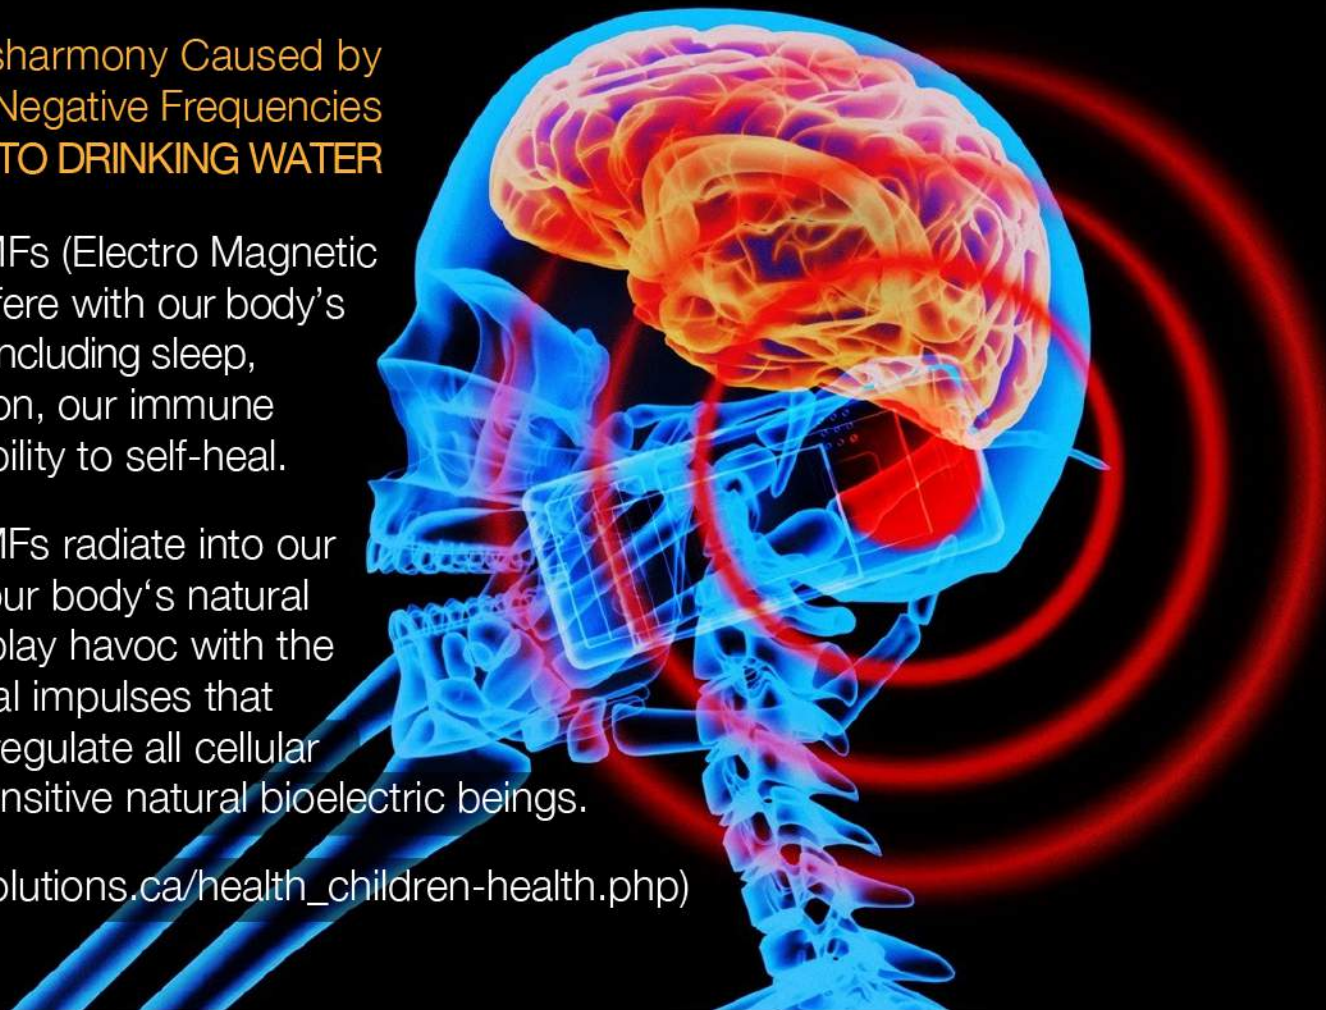

Environmental Disharmony Caused by Interference from Negative Frequencies
ALSO IMplode INTO DRINKING WATER

Radiation from EMFs (Electro Magnetic Frequencies) interfere with our body's natural processes including sleep, hormone production, our immune system and our ability to self-heal.

Radiation from EMFs radiate into our cells and disrupt our body's natural balance and can play havoc with the millions of electrical impulses that the body uses to regulate all cellular activity. We are sensitive natural bioelectric beings.

Frequency Factors

All living things are bio electric. Is your drinking water polluting you with EMF's?

The Electromagnetic Spectrum

The radiation behind radios, visible light and nuclear blasts is all exactly the same thing, just with different amounts of energy.

STATE	FREQUENCY	AMPLITUDE	COMMENTS
Beta	14-30 HZ.	1-5	Conscious brain state. Fast dysynchronous activity.
Alpha	7.23-9 HZ.	20-80	Conscious brain state. Synchronous activity.
Theta	4-7 HZ.	5-10	Usually unconscious. Slow rhythmic activity.
Delta	1-3 HZ.	100-200	Usually unconscious. Very large rhythmic activity.

Frequency Field Theory

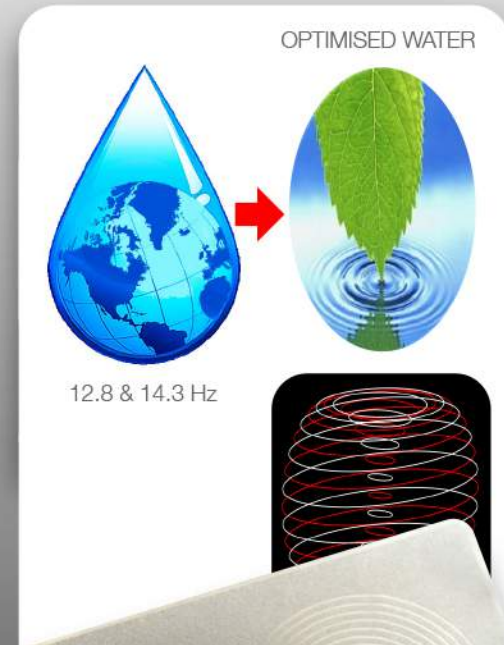

THE SMART CARDS Frequency Theory

The vortex starts with a twist in a counterclockwise direction. The counterclockwise direction allows for expansion. The counterclockwise spin accelerates or speeds up processes.

Smart Card was designed taking into account the effect of sine waves that are formed when Frequency moves counterclockwise and clockwise.

The Sine Waves Implode into Water as the Late Professor Imoto detected.

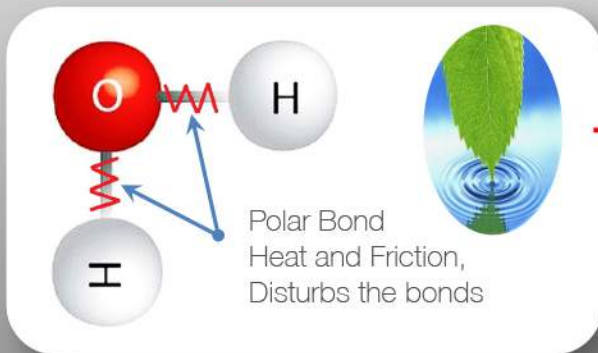

The resonance and vibration of frequencies is transferred through the card to Water, Light & Air.
